

Course 8 - Introduction to 12-Lead ECG

Modality: Self-Paced Learning

Duration:

The course on "Introduction to 12-Lead ECG" provides students with a foundational understanding of electrocardiography (ECG) interpretation, focusing specifically on the 12-lead ECG system. This course serves as an essential primer for healthcare professionals, equipping them with the knowledge and skills necessary to interpret and analyze 12-lead ECG tracings for the diagnosis and management of cardiac conditions.
