

## **Course 12 - PHR, Patient Portal, and Pop Health**

**Modality: Self-Paced Learning**

**Duration:**

The course on "PHR, Patient Portal, and Pop Health" provides students with a comprehensive understanding of three interconnected aspects of healthcare technology: Personal Health Records (PHRs), Patient Portals, and Population Health Management (Pop Health). This course explores how these tools and concepts are utilized to improve patient engagement, enhance care coordination, and optimize health outcomes at both individual and population levels.
